NOTICE

The Industrial Liaison Department wishes to inform all Final year (Level 400) Students of some exciting Internship opportunities available with the Aya Data Remote Internships 2024.

The Aya Data Remote Internships 2024 is as a benefit of a signed partnership between GCTU and Aya Data Services.

Aya Data is the largest provider of Data Services and AI Solutions in West Africa, on a mission to develop the first centre of excellence for AI in the region. This Internship Program is designed to provide students with a comprehensive learning experience that goes beyond the classroom. Students will be granted an opportunity to work alongside experienced professionals, gain exposure to real-world projects, and develop their skills in a supportive and dynamic environment.

The Programmes seeks interns who are:
- Enthusiastic, motivated, and eager to learn
- Excellent communicators with strong interpersonal skills
- Team players who are willing to collaborate and share ideas Problem solvers with a creative approach
- Tech-savvy individuals with a passion for innovation

Internship Opportunities are available for students with the appropriate background knowledge to join the following Aya Data Teams:
1. Data Software Development Team (Backend Internships)
2. Sales and Marketing Team
3. Customer Success and Project Management Team
4. IT Network Administration Team (Data Protection)
5. Frontend Development Team
6. Data Protection Team
7. Internal Quality Audit Team
8. Software Engineering Development Team
9. Solutions Analyst Team
10. UI / UX Design Team
